POSTURE SEATING

More working hours are lost through back pain and poor posture than for any other reason. In the UK alone it is estimated that a total of 8.9 million working days were lost due to work-related musculoskeletal disorders in the most recent statistics. In each case that amounted to 17.6 days off work. It was 35% of all days lost due to ill health in 2019/2020. Our innovative, stylish and high-quality posture chairs are designed to provide outstanding support and a high level of adjustability. This enables you to get the chair to 'fit' your best sitting position.

Chiropractor endorsed chairs

It takes a very special design to win the approval of one of the UK's top specialist chiropractors. Leading healthcare professional Robert Bateman has tested and endorsed our posture chairs.

Dr Bateman comments:

"Back pain is currently the largest reported reason for sickness absence. The staff that use a chair promoting good posture with the correct support will be more productive and efficient with a noticeable increase in customer satisfaction and decreased absence levels. The correct chair is not an expense; it is an investment in your bottom line profitability."

Robert Bateman
Chiropractor specialist

EXECUTIVE

Never has more been asked of the modern-day executive. They must operate with peak efficiency, whilst regularly tackling long hours and stressful environments. From mid-managers through to top executives, the tasks performed are varied and demanding. Having stylish, comfortable seating that supports the user perfectly and offers a variety of functions is crucial to achieving optimum performance at work. Every chair in our posture range has multiple functionalities. This allows users to set the chair up for the ideal sitting experience depending on height, weight, build and usage.

HEAVY DUTY

We come in all shapes and sizes, so why should we compromise on style and satisfaction? 'Heavy Duty' products can cater for users of a weight of up to 32 stone / 200kg; allowing the whole office to sit in comfort no matter their individual needs.

Product components within this category generally feature:

- Thicker seat pan
- Up-rated gas stem and castors
- Generous seating and back panels
- Thicker, higher density foam
- More securing bolts & thicker thread
- Increased thickness/gauge of steel for the mechanism

HOUSTON

- Anti-shock fully synchronous tilting action

AGILE SOFT SEATING

Workspaces are changing dramatically. We spend more time in them, more is expected of us when we are in them and we engage in more varied interaction with colleagues than ever before. Soft seating tears down the barriers sometimes created by traditional desk/visitor locations and instead fosters a more collaborative scenario in which creativity and solutions based debate is achieved. Our soft seating range is handmade in the UK incorporating quality features such as hardwood frames from eco sources, high density reflex foams, heavy-duty webbing suspension and high specification designer fabrics. You can choose from a variety of no extra cost feet and leg profiles, and even add extras such as power and USB charging ports.

VISITOR & CONFERENCE

Meetings. Love them or not they can often be where the best businesses are forged. In the modern, inclusive office it is rare that companies are the product of one person. The age of collaborative thinking means we all need to harmonise to get the best out of our collective effort. That is where the well constructed, effective meeting comes in. So whether you are discussing the next sales and marketing campaign, negotiating a new deal, working through some tough commercial details or developing new internal ways of working, being on your top game in a meeting is crucial.
