

OPEN THE DOORS TO PRINT

EDIXION
KEY TO PRINT

UNLOCK THE SAFETY BOX

An extra-large paper range of grammages **60 to 350 g/m²** and sizes **from 32x45 to 120x160 cm** in sheets, **from 17 to 283 cm** for reels width, the availability of twin pallets for small formats, the short delivery leadtime from Antalis everywhere in Europe... these are only some of the unique benefits of Edixion, which will guarantee time savings and paper stock optimization for your printing house.

Edixion will allow you to improve the productivity of your everyday printing jobs and to reduce your working capital, while benefiting from the best quality/price ratio of the market.

EDIXION, THE KEY OF YOUR SAFETY BOX!

BOOST YOUR PRINTING ENGINE

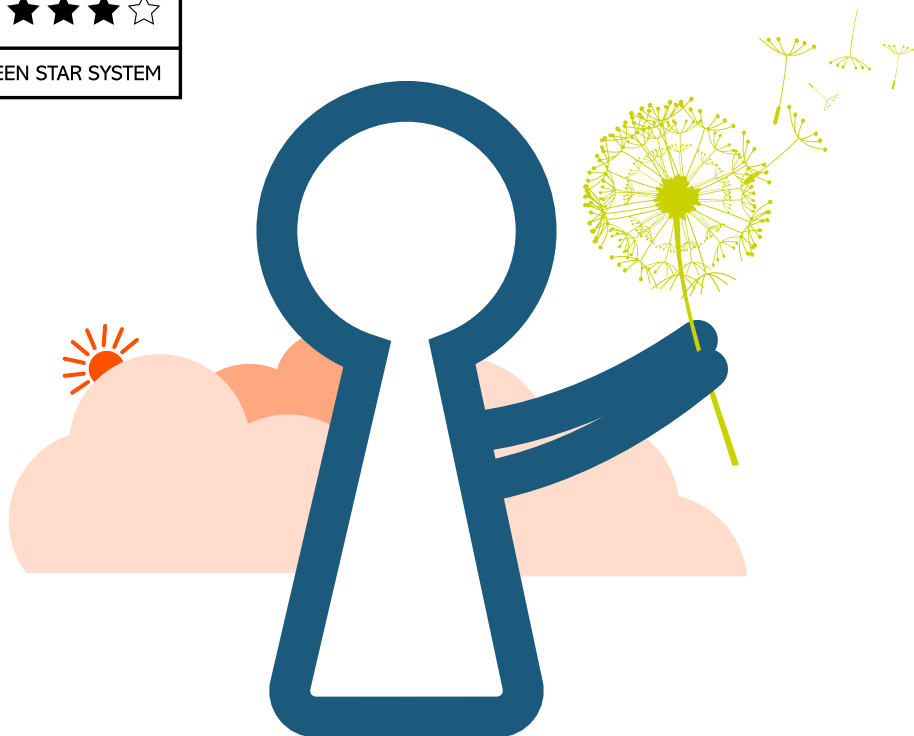

The pulp used for the production of the Edixion papers is a unique selection of **top-quality short fibres** for the surface printability and opacity, and **top-quality long fibres** for the mechanical resistance and stiffness.

Therefore, **Edixion is perfect for high speed printing and for very long runs**, whatever the paper size or grammage you use, and without worrying about the paper deformation or the printing result.

EDIXION, THE KEY TO YOUR PRINT PERFORMANCE!

ACCESS THE GREEN SYSTEM

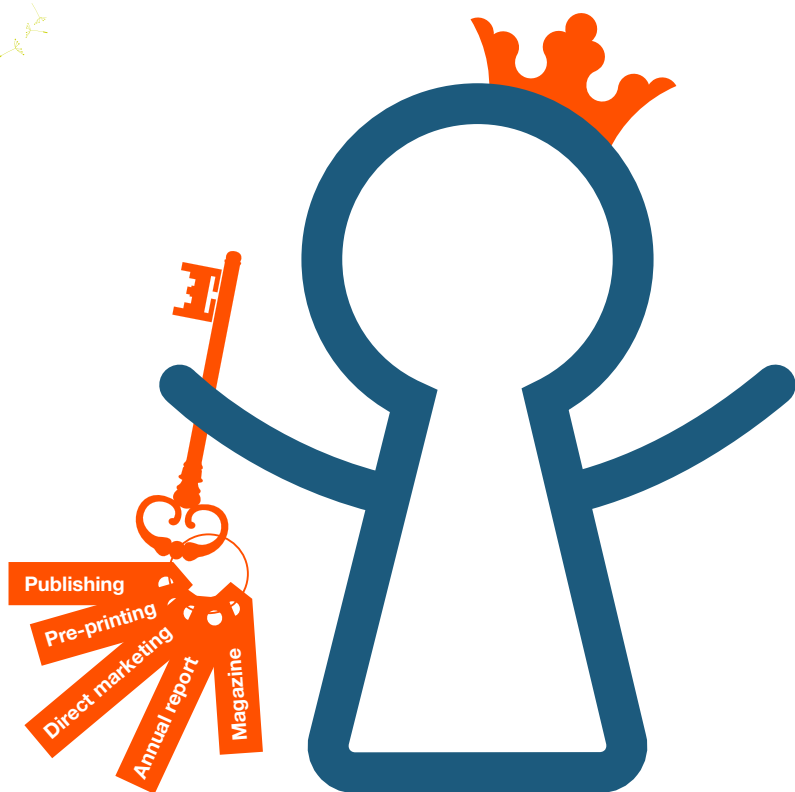

FSC®, **PEFC™**, **EU Ecolabel**, **toy safety and food packaging guarantees**,
low content of heavy metals, **REACH compliant...**

Like many of the paper products distributed exclusively by Antalis, Edixion bears the most recognized and internationally known labels and certifications, ensuring a total respect for the environment and for human health, whatever the printed application. It is awarded 4-Stars by the Green Star System (more information on www.antalis.com).

EDIXION, THE KEY TO ECO-RESPONSIBLE PRINTING!

THE MASTER KEY OF ALL PRINTS

Publishing, pre-printing, direct marketing, annual report, magazine, keting collaterals...

With Edixon, you are offered a complete range of high-white offset and preprint papers, which enable you to print most of the print applications requested by your customers and reduce to minimum the number of paper references in your stock.

EDIXION, THE MASTER KEY OF ALL YOUR PRINTINGS!

Answer all your customer requests, ensure the best market quality/price ratio, guarantee a constant paper quality with outstanding printability all the time, and whatever the run-lengths...

So if you are looking for an uncoated paper ensuring efficiency and productivity for your everyday printed jobs, choose Edixion, the versatile uncoated paper range for all your printed applications in offset and pre-print.

BENEFITS EDIXION:

- **Constant quality, good whiteness and regular surface** to ensure reliable reproduction of colours.
- **High bulk level and stiffness** to ensure top performance during the print run even at very high speed, while conveying an exceptional feel to the finished document.
- **High opacity** so that the quality of a 2-sided print job is perfect, even when low grammages are used.
- **All the qualities of Edixion** are offered in both offset and preprint grades, and in a large scale of grammages from 60 to 400 g/m².

EDIXION[®] OFFSET
